

The winter-spring 2022 issue of Lives & Landscapes magazine is only available online. There is no print or PDF version of this issue.

**Office of Extension
Communications**

Dear Lives & Landscapes Subscriber,
Thank you for your readership and commitment to MSU Extension's Lives & Landscapes Magazine. I want to share information about changes to this issue. We are pleased to continue providing how-to stories which feature your Montana neighbors. However, due to unforeseen circumstances, this issue combines our Winter and Spring edition and is only available online. Print subscribers will receive an extension to their subscription in lieu of this change. The summer issue will be available both in print and online. MSU Extension will continue to deliver engaging and high-quality content for the readers of our Lives & Landscapes magazine.

Appreciatively,

Erika Malo
Managing editor, Lives & Landscapes Magazine
